Alireza Hassani

Full-Stack Developer & Project Manager | Django • Vue.js • C# | GIS & Reporting Systems
Shiraz, Fars Province, Iran

Summary

Senior Full-Stack Developer & Project Manager with 10+ years of experience delivering scalable web applications and enterprise solutions. Expertise in Django, Vue.js, Python, C#, GIS systems (PostGIS & Leaflet), and reporting tools. Skilled at bridging business needs with technical execution, leading cross-functional teams through the full software lifecycle — from requirements and development to testing and deployment. Proven track record of delivering projects on time and within budget, with strong communication, problem-solving, and multi-project management capabilities.

Experience

parsia afzar faraandishan novin
Full-Stack Developer & Project Manager
February 2023 - Present (3 years 5 months)
Shiraz

- Served as Full-Stack Developer working with C#, ASP.NET Core, Django, and Vue.js to build and maintain scalable web applications.
- Developed RESTful APIs using ASP.NET Web API and Django Rest Framework.
- Designed and implemented responsive user interfaces with Vue.js, HTML, CSS, and JavaScript.
- Developed custom GIS mapping solutions using Leaflet.js and PostGIS.
- Created interactive dashboards and PDF reports using ReportLab.
- Acted as Project Manager: coordinated cross-functional teams, gathered requirements, managed timelines, and ensured on-time project delivery.
- Managed codebase with Git and optimized application performance.

Behine Sazeh Gostaran Tirazis
Project Manager
June 2019 - March 2021 (1 year 10 months)
Shiraz

- Coordinated technical drafts, design reviews, and construction supervision for client projects.
- Participated in technical meetings, submitted proposals, and contributed to risk management.
- Tracked project progress and resolved design conflicts to ensure smooth delivery.

Sepanta

2 years 3 months

Marketing and Sale Manager

May 2017 - May 2018 (1 year 1 month)

Shiraz

- Led sales team and developed strategies that increased revenue by 20%.
- Conducted market research and negotiated contracts with key accounts.
- Collaborated with other departments to ensure high-quality customer service.

Software Engineer

March 2016 - May 2017 (1 year 3 months)

- Developed and maintained ISP automation and management systems using C#, MVC, JavaScript, SQL, SSRS, CRM, and Accounting modules.
- Managed network performance, resolved technical issues, and created financial reports.
- Conducted testing, prepared documentation, and trained end-users.

Parto Rayaneh Parham

Software Developer

February 2014 - June 2015 (1 year 5 months)

Shiraz

- Developed office automation software and database solutions using C# and LINQ.
- Improved system connections, updated features, and provided user support.

Fars Regional Electric Company

Software Specialist and Project Manager

June 2014 - February 2015 (9 months)

shiraz

- Managed software implementation projects, scheduling, and resource planning.
- Analyzed databases, logs, and system performance to improve security and efficiency.

Kimiya Pars

Software engineering and Project Manager

June 2011 - February 2014 (2 years 9 months)

- Led implementation of web-based office systems using C# and SQL Server.
- Analyzed requirements and delivered solutions to improve system quality.
